ESSAY ON UBUNTU

Ubuntu means humility. One way of practicing Ubuntu is by encouraging each other so we can work together amongst people in different places. Other ways to practise Ubuntu is by being generous to your classmates. The past few days have taught me is that everything that happening around the world is because people have forgotten about Ubuntu we have stopped being generous and encouraging and started being hateful.

SECTION B

HERITAGE DAY & NATIONAL BUILDING

25 August 2022

DAILYSUN: Heritage day & National building

Heritage day is on the 24 September it is a day we use to recognise and celebrate our lovely culture in our nation. Every year our country would gather at his grave to honor him. In 1995 a request for the day to be confirmed as an official holiday was rejected. After receiving some pushback from the IFP , a big Zulu party took place,it was decided that the day was to be known as “heritage day”
